Jobs Near Me

Responsibilities:

1. Threat Assessment and Incident Response: Conduct regular assessments of potential security risks and vulnerabilities in our systems and networks. Monitor and analyze security logs, alerts, and incidents to identify and respond to security breaches and cyber threats promptly. Implement effective incident response procedures to mitigate risks and minimize the impact of security incidents.
2. Security Controls and Compliance: Develop, implement, and maintain information security policies, procedures, and controls aligned with industry

best practices and regulatory requirements. Conduct security assessments and audits to ensure compliance with internal security standards and external regulations. Collaborate with cross-functional teams to address security gaps and recommend remediation actions.

3. **Security Awareness and Training:** Promote a culture of security awareness among employees by designing and delivering training programs on information security best practices. Develop and distribute educational materials and resources to enhance employees' understanding of security risks and their role in maintaining a secure environment. Stay updated on the latest security trends and technologies to proactively address emerging threats.

Capgemini Careers

Skills:

1. **Information Security Knowledge:** Strong knowledge of information security principles, standards, and best practices, such as ISO 27001, NIST Cybersecurity Framework, or similar frameworks. Familiarity with security technologies and tools, including firewalls, intrusion detection systems, vulnerability scanners, and SIEM solutions.
2. **Analytical and Problem-Solving Skills:** Excellent analytical skills to identify security vulnerabilities, analyze complex security incidents, and propose effective solutions. Ability to think critically and troubleshoot security issues efficiently. Strong attention to detail and the ability to work under pressure to meet deadlines.
3. **Communication and Collaboration:** Excellent written and verbal communication skills to effectively communicate complex security concepts to technical and non-technical stakeholders. Strong interpersonal skills and the ability to collaborate with cross-functional teams, including IT, operations, and compliance. Ability to build and maintain relationships with clients and external partners.
